PRESIDENTS MESSAGE

July 31, 2016

This month we continue working through the process of purchasing the 151 Northpoint property. We are down to getting a couple proposals on a repair for an area of concern on the inspections. Our final decision will have to be made in the next couple of weeks.

As the updates on United Airlines mediation have stated, at last week's session the committee and participants were directed by the NMB not to disseminate any information at this time. This is part of the process and was to be expected as we work to conclude negotiations. Please, I ask of you to refer to information in the updates released in the Front Line or Mechanics Dispatch as these updates have the approval of the parties involved. For any of us at the table to divulge any more information at this time would jeopardize our individual participation in future sessions. Our next session is scheduled for the week of August 8th in Reston, Va.

Tomorrow Angel and I join Roger, Joey and Kevin for a week of Southwest Material Specialist contract discussions in FLL. As we continue to reach tentative agreements on articles the progress is encouraged to reaching a final agreement soon.

Our next General Membership Meeting is scheduled for August 22, 2016 at 15:30. If need be, due to NMB scheduling of UAL mediation, we may have to reschedule. We will inform the membership by email and text should this happen. Please plan on attending.

Please keep the families of James Pierce and Buddy Steele who passed away this past month in your thoughts and prayers. A special thanks to those who coordinated the raffle and burger burn for Buddy's family. I understand it was a great success.

As you can see we a very busy, as I am sure most of you are. Please, we get reminders each month of how important it is to live for today and take comfort in those relationships we have and hold precious those we love.

Thank you,

Bob Clever
